

AgroMen

High Water Soluble Compound Fertilizer

Specialized fertilizer for every stage of plants

AgroMen Series

High water soluble compound fertilizer

1

A series of compound fertilizer that caters to every growth phase of plants.

2

Also known as multi-nutrient fertilizer, which combines mineral and basic fertilizers in appropriate proportions to supply the correct plant nutrients.

3

Agrowin is tailor-made to suit all plant stage nutrient requirements, no matter in vegetative growth, flowering, fruiting or postharvest phase.

4

Each fertilizer in this series is meticulously formulated to provide the best combination of nutrient for each plant stage.

Benefits of AgroMen Series

Ease of use due to high solubility

Quick supply of nutrition for plants growth and yield

Replenish the deficiency of root fertilization

Prevent diseases with ample nourishment

AgroMen Series

1

AgroMen 1

- Growth Booster
- 20-5-10

2

AgroMen 2

- Blossom Booster
- 4-20-20+B

3

AgroMen 3

- Fruiting Booster
- 7-24-32+B

8

AgroMen 8

- Quality Booster
- 8-8-8-8+2Mg

AgroMen 1 (Growth Booster)

Suitable for plants in early and vegetative growth.

Promotes the development of greenery, specially in the growth stage.

Improves photosynthesis and plant metabolism.

Composition : 20-5-10

Total Nitrogen (N)	20.0%
Nitric Nitrogen (N-NO ₃)	2.8%
Ammoniacal Nitrogen (N-NH ₄)	1.0%
Ureic Nitrogen (N-NH ₂)	16.2%
Water Soluble Phosphate (P₂O₅)	5.0%
Water Soluble Potash (K₂O)	10.0%

Recommended Usage

	Foliar spray (g/L)	Soil drench (g/L)
Seedlings	0.5	1.5
Leafy and flower plants	1.0	2.5
Fruit trees	2.5 - 5.0	5.0 - 10.0

* Apply once every two weeks.

* Dosage can be adjusted according to plant condition.

AgroMen 2 (Blossom Booster)

Suitable for plants in flowering stage.

Enhances flower initiation and improves pollination and flower development.

Stimulate cell division, root lengthening, early maturity for fruit development.

Composition : 4-20-20+B

Total Nitrogen (N)	4.0%
Nitric Nitrogen (N-NO ₃)	1.5%
Ureic Nitrogen (N-NH ₂)	2.5%
Water Soluble Phosphate (P₂O₅)	20.0%
Water Soluble Potash (K₂O)	20.0%
Water Soluble Boron (B)	0.07%

Recommended Usage

	Foliar spray (g/L)	Soil drench (g/L)
Leafy and flower plants	1.0	2.5
Fruit trees	5.0	10.0

* Apply once every two weeks.

* Dosage can be adjusted according to plant condition.

AgroMen 3 (Fruiting Booster)

Suitable for plants in fruiting stage.

Promotes fruit initiation and improves fruit quality.

Enhances fruit set, growth and development.

Composition : 7-24-32+B

Total Nitrogen (N)	7.0%
Nitric Nitrogen (N-NO ₃)	2.5%
Ureic Nitrogen (N-NH ₂)	2.0%
Ammoniacal Nitrogen (N-NH ₄)	2.5%
Water Soluble Phosphate (P₂O₅)	24.0%
Water Soluble Potash (K₂O)	32.0%
Water Soluble Boron (B)	1.0%

Recommended Usage

	Foliar spray (g/L)	Soil drench (g/L)
Leafy and flower plants	1.0	2.5
Fruit trees	5.0	10.0

* Apply once every two weeks.

* Dosage can be adjusted according to plant condition.

AgroMen 8 (Quality Booster)

Suitable for fruit for pre-harvest phase.

Enhances quality and development of fruit

Enhances aroma, taste and texture of fruit

Composition : 8-8-8-8+2Mg

Total Nitrogen (N) 8.0%

Nitric Nitrogen (N-NO₃) 6.0%

Ammoniacal Nitrogen (N-NH₄) 2.0%

Water Soluble Phosphate (P₂O₅) 8.0%

Water Soluble Potash (K₂O) 8.0%

Water Soluble Sulphur (S) 8.0%

Water Soluble Magnesium (Mg) 8.0%

Recommended Usage

	Foliar spray (g/L)	Soil drench (g/L)
Leafy and flower plants	1.0	2.5
Fruit trees	5.0	10.0

* Apply once every two weeks.

* Dosage can be adjusted according to plant condition.

Thank you for listening
