

# OB-100

OB-100 is a fermentation product that consists of probiotics and Bacillus ferment with a special fragrance of yeast. The special fragrance of yeast of the OB-100 can cover up the unpleasant odour of the feed ingredients, enhance the taste and smell of feed to improve palatability and encourage greater feed intake, thus obtain more nutrients to promote growth. The probiotics in OB-100 promote the balance of intestinal microbiota, improve digestion by producing large amounts of varieties of digestive enzymes and efficiently decompose the toxins, toxic amines, methane and other toxic substances produced in the animal's intestine to enhance immunity and prevent diseases. The Bacillus ferment is rich in various amino acids and trace elements, as well as various vitamins, mannan oligosaccharides, functional peptides and more, that needed by the animal.

## Functions

1. Improves feed intake and feed efficiency.
2. Boosts immune system.
3. Improves daily gain and slaughter rate.
4. Improves animal reproduction rate, lean meat rate and egg production rate.
5. Improves flavour and colour of meat and egg.
6. Reduces faecal stench and eliminates fly larvae.

## Composition

1. Win Men's probiotic cocktail.
2. Bacillus ferment.
3. Mannan oligosaccharide.

## Recommended dosage

Swine	25-50 kg/ton
Poultry	25-50 kg/ton
Ruminant	Direct consumption

## Storage

Store in a cool and dry place.  
Reseal the liner when not in use.
